LEWIS CARROLL MEMORIAL UNVEILED

Mr. Lloyd George On Giving Happiness

(Special Air-Mail Service)

Llandudno, Sept. 4.
Mr. Lloyd George, in the presence of thousands of visitors and residents, to-day unveiled a memorial at West Shore, Llandudno, to the memory of Lewis Carroll. The memorial, the work of Mr. F. W. Forrester, a local sculptor, depicts the White Rabbit, watch in hand, and a tablet beneath records that on that shore, during happy ramblings with Dean Liddell's little daughter Alice, Lewis Carroll was inspired to write "Alice in Wonderland."

Speaking in the Llandudno Pier Pavilion at the opening of an "Alice in Wonderland" Pageant, Mr. Lloyd George said the world was happier to-day because Lewis Carroll passed through it. The immortal "Alice in Wonderland" was one of those rare books the very phrases and characters of which had entered into the currency of the English language. Mr. Lloyd George quoted from the book the Queen's rule that prison and punishment should come first, trial should follow, and the commission of crime come last. It might sound grotesque, but they would not have thought that a great European country would be ruled very largely on that principle to-day. Lewis Carroll saw the possibility of even that happening, and he wrote it as if it were something he had seen in Wonderland.

Lewis Carroll's Logic
One must be attracted by Carroll's specimens of logic, his irrelevant and inconsequent answers, which reminded one of an argument between a man and a woman. He charmed children of all ages. Under a cloak of delightful nonsense there was the richest and the ripest of wisdom. The world since 1832 had joined in the laughter and the merriment of these ramblings on the shores of Llandudno, and the paths trodden in Wonderland for the first time by the little feet of Alice were now thronged by multitudes of children and men in all climes.

Mr. Lloyd George said he regretted that Alice was not present. They owed her a debt of eternal gratitude. The book might never have been written but for her.

She revealed to Lewis Carroll the truth that the key held by a childish hand fitted best the door of Wonderland. He loved children. His book was the overflow from a heart which loved childhood with the tenderness of his great Master. These books were a bubbling fountain of perennial delight to young and old. They were a pure joy. There was not a germ in them of that poison that fermented mischief in life and character. There was no corrosive acid to inflict pain. It was a limpid, exhilarating joy in every sentence.

Mr. Lloyd George said he envied the person who had not read "Alice." It was the best cure for melancholy and bad temper. Lewis Carroll radiated happiness. He had a happy life and he was anxious to pass on the happiness to others. He once said, "My life is so free from all trial and trouble that I feel happiness is a talent given me to make other lives happy."

Mrs. Hargreaves's Message
A letter was read from Mrs. Alice Hargreaves, the original of "Alice," who wrote:—"I feel very real regret that I cannot be with you all at the unveiling of the memorial that wonderful friend of my childhood, Lewis Carroll, but increasing age makes physical adventures in Wonderland more and more difficult, though my mental adventure will never close so long as there are people like all of you at Llandudno to honour that teacher, who, by his logical nonsense, has added to the pleasure of thousands. I still have the happiest memories of Penmorris, as my father's house in Llandudno was then called, and of the ramblings over the Great Orme's Head and among the Llandudno sandhills. I wish I could come personally, in gratitude for those joyous days and for the days spent with Mr. Dodgson."

Nearly 100 children from Llandudno junior school presented in the pageant "five" episodes from "Alice in Wonderland," after which a procession went to the West Shore, where the memorial was unveiled within sight of the house where the Liddells used to spend the summer.

What Courage And Small Capital Can Achieve

Kuala Lumpur, Sept. 12.
That it is not beyond the capabilities of people in Malaya to organise local air services was urged by a speaker at a meeting of the Kuala Lumpur Rotary Club when the success of aviation in Siam was declared as an example of what courage and a little capital might achieve country.

Several references to local aviation possibilities were made by Mr. R. T. Mills, last year's captain of the Kuala Lumpur Flying Club, in an exceedingly interesting address delivered at the weekly Rotarian luncheon today.

In Siam, said Mr. Mills, we have an example of enterprise well worth study by all. The Aerial Transport Company of Siam inaugurated their aerial service in August, 1931, and show a fine record of uninterrupted service. Four British Puss Moths are used. No forced landings or accidents to personnel or machines have been sustained, and no scheduled trip has been cancelled.

In their first year of working their four machines flew an aggregate of 73,622 miles; 30,812 lb. of mail was carried, with 4,382 lb. of freight. Forty passengers travelled in the Moths. The average speed made good over the ground, in spite of severely adverse weather during much of the year, was 94.5 m.p.h.

LOCAL HANDS MAKE GOOD

Neither machines nor engines gave the slightest trouble, a tribute alike to their makers and to the efficiency of the staff which, with the exception of Mr. Jackson, the Operations Manager, entirely Siamese (Applause).

Results like these would be noteworthy in any climate. In Siam, which, in addition to wind and cloud conditions resembling those met with in much more northerly latitudes, suffers from terrific fro-

pical rainstorms, they may justly be described as magnificent.

The configuration of the country, particularly in the south, is favourable to long distance aerial navigation; but the serious disadvantage exists that most of the flying fields lie in the rice-producing territory and are under water for part of the year.

This efficient company intend establishing an air link with the European lines which serve Burma and Siam.

The company made a handsome profit in its first year.

WHY NOT IN MALAYA

Recently a newspaper correspondent argued that the success of the Siam flying company in a land where people do not hurry about business proves what an efficiently run service might do in Malaya.

A man of vision could with courage, and but small capital operate a feeder-line in Malaya with financial success. Supply would create demand as air-mindedness grew; and these States are likely to be noticeable on the air-map of the future.

"I believe," Mr. Mills added, "that our Posts and Telegraphs Department are awake, and sufficiently go-ahead sympathetically to consider support to such a proposition, as, say, a local feeder-line, whose planes on a Wednesday would pick up the air-mail letters from Seremban, Kuala Lumpur, Ipoh, and Taiping, and deliver them in Penang (or Alor Star) ready for the homeward K.L.M. next day."

Similarly, that same plane could pick up our portion of the outward mail on the Thursday and drop the packages by parachute at Taiping, Ipoh, Kuala Lumpur, and Seremban.

AQUARIUM FOR SINGAPORE

Government Offer To The Municipality

Singapore.
The Government's free offer of an area of Crown land at Stamford Road and Waterloo Street for an Aquarium, with requisite grounds, was considered at a meeting of Municipal Committee No. 4 this week, who recommended the Municipal Commissioners to accept the offer.

The Committee also approved the plan of the lay-out of the site as prepared by the Manager of the Improvement Trust, involving a new bridge over Stamford Canal, and the closing of the south end of Waterloo Street traversing the open space.

DAYLIGHT SAVING
IN PENANG
And Other Questions
Penang, Sept. 22.
The committee of the Straits
Settlements (Penang) Associa-
tion who were asked whether
they would be agreeable to sup-
port a resolution for free elemen-
tary education, has replied that
the committee is unable to con-
sider the matter until further in-
formation has been obtained.
With regard to the question of
daylight saving the committee de-
cided by a majority in favour of
the continuance of daylight sav-
ing.

HAWKERS' CALLS
With regard to the amendment
of minor offences which is aimed
at the prohibition of the beating
of drums etc. in the public road
during the day-time so far as it
affected hawkers, the committee
felt that his when by immemorial
custom made certain noises
peculiar to their respective trades
which were well-known to the
public and which it would be a
hardship on them to stop.
With regard to the proposed
amendment to the Women and
Girls Protection Ordinance, the
presumption of the knowledge
that the owners knew the
premises were being used as a
brothel would incriminate in-
nocent owners and agents and
was decided to advise the Govern-
ment that the committee was of
the opinion that the committee
was of the opinion that this part
of the bill should be withdrawn.

"I WAS A SPY"

A London Critic's Opinion

London, Sept. 5. "I was a Spy" (Twelve).—This fine British picture flashes across the horizon of the silly season like a meteor, but we hope will not be so soon gone. It is a story of Belgium in war time, based on the actual records of a spy for the allies who worked as a nurse in a German hospital, but it is conceived in such a way as to spread beyond individual experience to the study of two nations living at white-heat.

Victor Saville has directed his study of conflicting loyalties with a kind of austere passion that denies hysteria, and keeps resolutely free from sentiment. Like all his pictures, this one is entirely without affectations; Saville never swanks, never uses technique for technique's sake, never leads the audience away from the clear outline of his story. He makes films well because the content means something to him, not because the form primarily intrigues him; he is a good enough craftsman to find the right

RASPUTIN AND THE EMPRESS

Three Barrymore
Hit Coming To Queen's

"Rasputin and the Empress," probably the most discussed motion picture of the year, will commence on Thursday at the Queen's following its successful run at the Astor Theatre in New York and extended showings in the principal cities of the United States. John, Ethel and Lionel Barrymore are starred in the three principal roles of the production, appearing for the first time on the screen during their respective careers.

"Rasputin and the Empress" is based on an original story by Charles MacArthur, well known for his work on "The Front Page," "Lulu Belle" and other stage and screen dramas. The picture was directed by Richard Boleslavsky, author of "The Way of a Lancer" and "Lances Down," and for several years following his earlier work with the Moscow Art Theatre, a prominent figure in Hollywood.

Presents Intimate Details. The film is said to present with fidelity the personal details of the career of Russia's "Holly Devil," from his birth in a peasant community in Siberia through his rise to power, his association with the Czarina and his mysterious control of the Romanoff court.

John Barrymore has the part of Prince Chogodoff, intimate friend of the Czar and Czarina. Ethel Barrymore plays the Czarina, while Lionel Barrymore, last seen in "The Washington Matqu Shore" and before that in "Grand Hotel," is seen as Rasputin. The role of the Czar is filled by Ralph Morgan, and that of the little Czarvitch by Tad Alexander. Both Morgan and Alexander were recently seen in "Strange Intertide." Other important roles are played by Diana Wynyard, the English stage star, C. Henry Gordon and Edward Arnold.

Ethel Barrymore's Debut. In "Rasputin and the Empress," Ethel Barrymore makes her first appearance in a dialogue picture and has her first film role in a number of years. Her recent vehicles on the legitimate stage include "Scarlet Mary," "The Kingdom of God," "The School for Scandal" and "The Constant Wife."

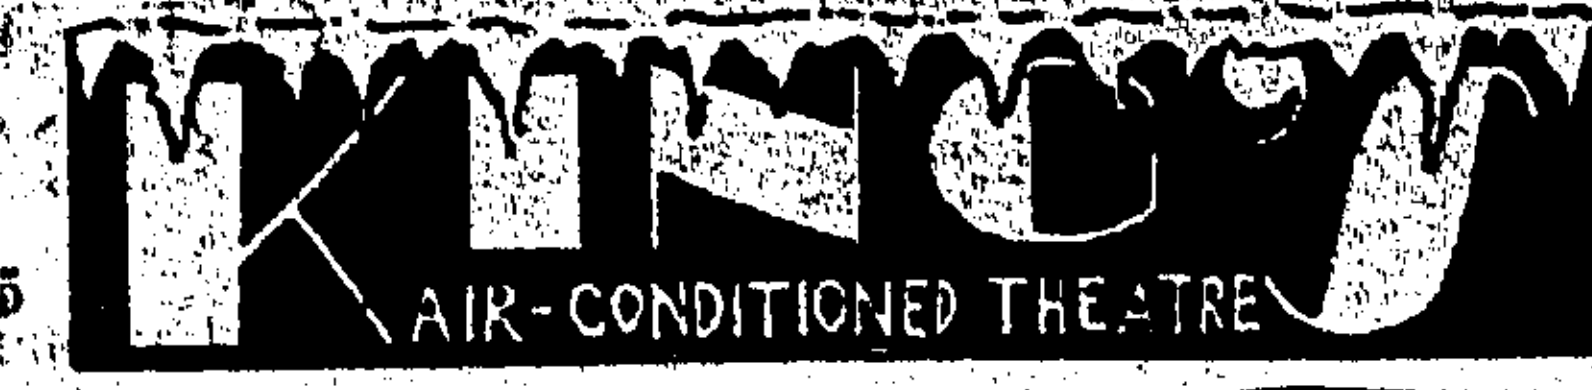

Although Miss Barrymore has not previously appeared in a production with her two brothers, John and Lionel were seen in joint roles in "Grand Hotel" and "Arsene Lupin."

Alexander Tolstoy, Russian architect, assisted in planning and designing the ambitious, court and cathedral backgrounds for the picture, which are said to be among the most spectacular of any utilized in a talking picture.

form once the content has engaged his sympathies.

"I Was a Spy" is a war film without vituperation. It is moving, and pitiful, but it does not rant. Madeleine Carroll does the best work of her career because she comes to it like a woman with her senses raw; Conrad Veidt injects his German commandant with all the pain and pity of an unimaginative man caught in emotional turmoil. Veidt's dramatic stature is so immense that there is no room for a hero on the screen beside him, and if Herbert Marshall had been ever so much less the Hollywood star, it is likely that his part in the conduct would still have lacked significance.

AT THE QUEEN'S

All Comedy Programme Proves Welcome

That the all-comedy programme is gaining popularity in the Colony is evidenced by the fact that the current programme at the Queen's presenting Metro Goldwyn Mayer's all Comedy Programme proved to be a good draw. Laurel and Hardy, whenever they appear on the local screen are sure to attract film-fans, and in their latest picture "Another Fine Mess," they still prove to be delightful comedians. Their comedy lies not in witty puns or in humorous dialogues, but rather in the absurdly farcical situations that both of them have such a knack of producing. The contrast to the Laurel and Hardy comedy will be found in Zasu Pitts and Thelma Todd in "On the Loose." Here the comedy is rather more subtle, but even in this case, the farcical aspect of motion-picture amusement, especially as it appears in a broad comedy, is not overlooked and this film provoked as much laughter as the antics of Laurel and Hardy.

Charlie Chase, that clever comedian who depicts comedy of the "fool" type, is in a class by himself and while it is difficult to compare him with the others, it is not unjust to say that he is every bit as entertaining, as any other comedian in the film world to-day.

On the whole the programme is an entertaining one, and coupled with it are two interesting features, showing bull-fighting in Mexico and Over the Seas to Borneo, whilst the Hearst Metrotone News contains some recent items of world interest.

"THE KID FROM SPAIN"

At the King's

This picture still draws crowds, and from the attendance it seems that if you want to get a seat you will have to book early as hundreds have been turned away. It is the finest film of its kind we have witnessed. Eddie Cantor continues to captivate his audience, in his inimitable portrayal of a matador. Lyda Roberti has a winning personality and charms one with both her singing and her acting. The Goldwyn girls are superb, and their swimming feats are decidedly clever. This is splendid entertainment and we recommend it to all our readers if they are seeking diversion.

AQUATICS

Annual Meeting Of H.M. Small Ships

Excellent swimming was seen at the Y.M.C.A. bath yesterday when the annual aquatic sports of H.M. small ships were held. A large gathering including Commodore Elliot was present to see the sports which were keenly contested.

A. B. Fifferty (H.M.S. Wishart) won the 100 yards free style, while the winner in the 820 yards was Boy Bosby (H.M.S. Suffolk). At the conclusion of the sports, Commodore Elliot distributed the prizes.

Mr. Gerald Yorke, the foreign correspondent who was arrested during the Jehol campaign, has passed through Kiukiang en route to Nanking to cover General Chiang Kai-shek's forthcoming campaign against the Reds in Kiangsi. Once again Mr. Yorke is representing Reuters Agency.

The story deals with a girl crazy youth who is sent to the quiet of a western ranch to cure him of his weakness for beautiful women. He imports a snappy jazz band, a bevy of Broadway beauties, dresses the cowpunchers in dinner jackets and turns the ranch into a playboy's paradise.

THEATRES AND FILMS

Boom Sweeps Britain

London.—The West-end theatre boom is sweeping the whole country.

Yesterday provincial theatredom came to the end of the most profitable August that it has known since the war-time boom.

The secret of this surprising prosperity in the hottest August for twelve years is that the theatre is winning its fight against the cinemas. It is matching its big stars against the big stars of the screen.

Where once the West-end was bounded by the Strand and Shaftesbury-avenue, it can now be said to lie between Brighton and Glasgow.

A typical case of the renaissance in fish-and-blood entertainment can be found in Glasgow itself, where all but one of the city's many play-houses are now open, the Theatre Royal raising its historic curtain again next Monday.

Three months ago the King's Theatre was faced with its annual summer closing. Mr. Julian Wylie bravely decided to produce a local revue.

That revue is still running!

Manchester has John Van Druten's play "The Distaff Side" at one theatre and Lady Eleanor Smith's "Ballerina" at another, while waiting for Miss Gertrude Lawrence's appearance in "Nymph Errant." Newcastle will be host next week to Miss Marie Tempest and Mr. Owen Nares.

Bristol's Shows.

Bristol has "The Maid of the Mountains" at one house and the D'Oyly Carte company at another; Birmingham has Leslie Henson in a musical comedy and the Repertory Theatre in full swing.

Professional repertory companies are, indeed, springing up everywhere; in Bradford, in Liverpool and in Glasgow.

In short, during the month that the theatres have traditionally played to empty seats, and red-linked their ledgers, the box-offices have been doing really big business.

A good deal of this welcome prosperity in an industry employing thousands of workers and millions of capital can be credited to the truce between Moss Empires and Howard and Wyndham.

A Chain Of Houses.

These two firms control between them some forty of the finest theatres in the country, the majority of them larger than the average West-end house.

The firm of Parnell and Zellin has also done much to create the boom. They decided over a year ago to tour big shows in a big way with nationally famous artists.

The footlights of Great Britain which only a year ago seemed destined to flicker out in a favour of the cinema screen, are burning brighter than ever.

It is one of the miracles of the world of entertainment.

ECHOES OF 1859

11.—An Incident at Macao Recalled, In Verse

February 19, 1859.
We refused to insert in prose what the following professes to be an account of, because we cannot believe the statement given by a contemporary. Poetry, however, is quite another thing and is allowed such a degree of erratic latitude that with our entire and well-known devotion to the muses, we cannot think of allowing the following effusions to be "born to blash unseen and waste its sweetness on the desert air."

Bellico's Warlike Bubble Explodes in Macao.
Hoi Listen to me my friends,
While I relate a story.
Of what befel poor Bellico,
Of Editorial glory.

That famed and famous fighting man,
Of all Hong Kong the terror,
Unto the Holy City came,
And straight lapsed into error.

He'd signed to own a nine-league boot,
"I would reach Macao so handy,
Wherewith to kick an ancient friend,
When on the Praya Grande.

But promised kicks are seldom dealt,
The Braves threaten many;
And those that came from Bellico,
Are worth the least of any.

And there are times when kicks may meet,
With customers unwilling;
And so it proved with Bellico,
Whose broad physique's so killing.

For ancient friend, had British pluck,
And loved a mainly set-to,
Linked to a calm and quiet way,
Whereon a man might bet too.

So when Sir Charles Forbes came,
And Bellico had landed,
The reckoning was about to come,
Which nine-league boot demanded.

For there he met his ancient friend,
With happiest smile awaiting.

The promised kick—Oh! Bellico!!
Where was they promised ratings?

Why turn so pale, and cur-like sneak
Into the nearest dwelling.
In your bombastic fearless heart,
There should be no rebelling.

Alas! for craven Bellico,
Our ancient friend still followed;
And if mine ear deceived me not,
The "Galley-hero" hollow'd.

In words like these—"Police! Police!
He's spit upon my face—
Oh! Landlord! quickly call the guard
The insult to efface."

Then up and spoke my ancient friend,
"Where is now your promised kicking,
Tobacco juice adorns you best,
You are not worth a licking."

The very name of Briton,
Your coward face was only meant,
For gentlemen to spit on.

So after this, my Bellico,
Let kicks and horsewhips pass;
You know you have a craven brav,
And that predicts an ass.

GIRL WHO THOUGHT SHE WAS FIRST WIFE

Singapore Chief Justice's Ruling On Her Legal Remedy

If a Chinese woman is able to prove that she married her husband after being made to believe that she was being taken as a principal wife but that in fact he was already married, and that she thereby suffers damage in mind or reputation, she can obtain his conviction under the Penal Code of the Colony. That was the ruling given by the Chief Justice, Sir Walter Huggard in the Appeal Court when he heard the appeal of a young Chinese, named Goh Tek Siew, who was convicted by a police magistrate on a charge of cheating his second wife, a girl not yet 20 years of age, by falsely representing to her that he was an unmarried man and thereby inducing her to marry him. He was fined \$100 or in default two months' imprisonment.

His Lordship held that the evidence left some doubt in his mind as to whether there was any dishonest inducement and quashed the conviction, but gave the ruling above stated.

It was argued by Mr. Fung, who appeared for the appellant, that the real complainant in the case was the mother-in-law of the appellant and not the girl herself. The mother-in-law knew all the time that her daughter was to be a secondary wife, although it might have been possible that the girl thought otherwise.

In any case, he continued if any harm had been done it was too remote to warrant a conviction under the Penal Code.

UNUSUAL CIRCUMSTANCES

Secondary wives were not always treated in an inferior manner. Very often with Chinese people the union of the husband and his first wife was brought about, by the parents, but the marriage to the second wife was a true love affair.

The circumstances of the case were unusual, said Mr. Fung. In his 18 years practice at the Bar he had never come across a case of this kind before.

Whatever the lady might be, first wife or second wife, she had the protection of the law in the matter of maintenance and succession in the case of intestacy.

"That is provided for in the Six Widows Case and all the subsequent cases," counsel continued. His Lordship: "I do not know much about it, but surely it is much better to be the first wife than a second wife."

Mr. Fung: The status is a little better, but the law recognises a second wife in the same light as a first wife.

His Lordship: But the conditions of life and treatment, are not they different?

Mr. Fung said that if the lady had any grievance it was more in the nature of a civil grievance. "I submit that no real harm can have been done simply because she found out she was not a first wife."

"FOR HUNDRED YEARS OR EVER"

An agreement had been signed by the husband. He had undertaken to marry the girl, "to be united by law for 100 years or for ever" while at the same time he undertook to support his mother-in-law for the whole of her life and be responsible for her funeral expenses.

The document, said Mr. Fung, was not the form which was usually signed when a man took to himself a first wife. The mother-in-law knew there was another wife and the evidence regarding the marriage showed that it was not the ceremony that would have been adopted if it was a marriage to a first wife. None of the bridegroom's friends or relatives attended.

Mr. J. H. Barnett, Acting D.P.P., said he did not press the matter.

There could be no doubt that it was intended at the time to make the girl think she was going through the ceremony of a marriage as a principal wife. "The absence of the bridegroom's friends was explained away and the bride was removed to her husband's house, most elaborate precautions being taken to conceal the fact that she really was a secondary wife."

His Lordship said: "There is a difference between the status and social position of a first wife and a secondary wife under Chinese custom. Therefore, if a man induces a woman to marry him on falsely representing to her that she is going to be a first wife and she accepts and consents to marry him, I see no reason why section 415 should not apply, if she is able to prove that as a result of the marriage she has suffered damage and harm."

In the present case, the evidence leaves considerable doubt in my mind as to whether there was any fraudulent or dishonest inducement. I am bound to give that doubt to the appellant."

OUR DANCING CABARETS

DANCING PARTNERS

The licensee of a public dancing hall shall employ only such assistants as the licensing authority may approve, a register must be kept at the dancing hall in which shall be entered the names, age, sex, nationality, birthplace and place of residence in the Colony of every dancing partner and other person employed, as well as a photograph of every dancing partner and other employee.

No person under the age of 15 shall be employed or permitted to dance in the premises, and except during the hours prescribed in the conditions of the licence, the public shall be excluded from the premises.

GOOD ORDER ETC.

No intoxicating liquors shall be sold or consumed in the premises, except in accordance with the terms of a valid licence.

The licensee is expected to maintain good order in the premises by refusing to permit:

Any profanity or impropriety of language;
Any offensive personalities or representations of living persons or anything calculated to produce riot or breach of the peace;
Any drunkenness or other disorderly conduct;
Any unlawful game; or
Any persons of notoriously bad character to assemble and meet together.
Conditions for fire appliances and escapes, proper exits, and complete measures for hygienic conditions are also provided.

Temporary and annual licences can be taken out, the fee for the former being \$20 and for the latter \$120.

CRICKET

Club Trial Matches

Three club trial games and a friendly match between the University and R.A.S.C. ushered in the opening of the 1933-34 cricket season on Saturday. Wickets as a whole played very truly, though a little on the soft side and four batsmen made high scores. These were Teddy Fincher, A. H. Madar, T. A. Pearce, and P. A. Minn, the new "discovery" at K.C.C. Three good bowling feats were recorded: W. C. Whitley (R.A.S.C.) taking 9 for 21 against the Varsity, T. L. Redmond 5 for 14 in the H.K.C.C. Trial and U. B. Tata (Varsity) 4 for 18 against R.A.S.C.

RESULTS WERE:

T. A. Pearce Shines

The features of this match was a brilliant innings of 25, retired, by T. A. Pearce in which he hit three fifties out of the ground, and some fine bowling by T. L. Redmond.

Redmond, who bowls a medium fastish ball with a swerve took 5 for 14 and at one period had 5 wickets for 6 runs with 16 balls.

ence leaves considerable doubt in my mind as to whether there was any fraudulent or dishonest inducement. I am bound to give that doubt to the appellant."

It was clear from the evidence (his lordship said) that the complainant herself never complained at all. She was his wife for two years and it was only when the appellant lost his employment and failed to support his mother-in-law that the prosecution was instituted. It did not seem to be a very genuine one. He quashed the conviction.

INTERNATIONAL SOCCER

Ireland beat Scotland

Belfast, Oct. 1.

The Irish League defeated the Scottish League at association football by 3-0. The half time score being 2-0. This was Ireland's fifth win after thirty four meetings. They owed their victory to their fast half-black line and the trickiness of the left winger, Kirby.

Ireland's first goal was from a corner, the centre forward, Martin, scoring and shortly after Houston put the ball into the net. On resumption Martin scored Ireland's third goal. The weather was dull fifteen thousand spectators witnessed the game.

THE CONTE ROSSO PASSENGERS

Interviews With Four Celebrities

MRS. PEARL BUCK'S NEW BOOK

The a.s. Conte Rosso which arrived in the Colony at daylight brought with her a "precious cargo," for amongst the passengers were Sir Harry McGowan, a director of the Imperial Chemicals, Ltd., Dr. Rajchmann, who was recently appointed as technical adviser by the League of Nations to China, Mr. Habbalul Khan, the newly appointed Afghan Minister to Tokyo, and Mrs. Pearl Buck, the well-known authoress.

Dr. Rajchmann

Dr. Rajchmann is on his way to Shanghai and Nanking to join the other experts appointed by the League and already in China to help the Government in matters relating to public health, the construction of roads, irrigation, agriculture, sericulture and civil service, with a view to coordinating their activities.

Dr. Rajchmann gave a *Daily Press* representative an interview, and referring to his appointment, said that China had been co-operating with the League of Nations since 1929 in connection with reconstruction and technical development.

The Chinese Government asked the League at the beginning of the current summer to continue collaboration in the future and the League then appointed a special China committee comprising the President of the League Council, representatives of China, Great Britain, Italy, Germany, France, Czechoslovakia, Spain and Norway to this end. "This committee was to act only when requested to do so by the Chinese Government."

"There are at present in China," Dr. Rajchmann said, "quite a number of experts sent out by the League at the request of the Government to help in various spheres of public activity such as public health, construction of roads, irrigation, agriculture and the form of Civil Service. The Chinese Government then considered it advisable to ask the League to send to China a technical officer who would co-ordinate the work of these various experts and to act as technical liaison officer between the Chinese National Economy Council and the technical organisations of the League. In July of this year this China Committee met in Paris and appointed me as technical delegate."

Asked if he thought the League had lost face over the South American and Manchurian troubles, Dr. Rajchmann said he had nothing to say as he was interested solely in the technical side.

Dr. Rajchmann also declined to say anything regarding the reported Japanese opposition to his appointment.

The Afghan Minister

Mr. Habbalul Khan, in a short interview with our representative said that the main reason for his appointment to Japan was the increase in trade between the two countries. He had, hitherto, most of Afghanistan's trade with Japan passed through India, where local firms acted as a "third party," but of late negotiations had been direct and that necessitated a representative of his country in Japan.

Mrs. Pearl Buck

Mrs. Pearl Buck was on deck when approached by our representative. She said she had had a very enjoyable holiday, ten months in America and three months in Europe. She was, however, very glad to get back to China which she described as her home, and said she was now working on a book which will probably be given the title of "Patriots." After this, Mrs. Buck said she hoped to do a book on her "own people," who according to her are like everybody else, "from an outward point."

Sir Harry McGowan

Sir Harry McGowan, K.B.E., is Chairman of Imperial Chemical Industries. Sir Harry was formerly on the staff of Nobel's Explosives Company. During the war, Nobel's were responsible for the supplies of vast quantities of high explosives and Sir Harry, as a result of his work, received the K.B.E. in 1918, when he was the Chairman of the company.

Sir Harry has always been a believer in rationalisation of industry and as a result of his experience with Nobel's he realised that it would benefit both the industry and the consumers to amalgamate the various interests in the explosives industry. This he did in 1919 when he was responsible for the formation of Nobel Industries Limited, of which he became Chairman and which was a merger of various large explosives concerns. In 1926 in co-operation with the late Lord Melchett, then Sir Alfred Mould, he formed Imperial Chemical Industries Limited, which was the amalgamation of the joint interests of Brunner Mond and Company, Nobel Industries, the United Alkali Company, and British Dyestuff Corporation.

These concerns already enjoyed a world wide trade, and Imperial Chemical Industries now comprises over forty constituent and associated companies. The company owns about ninety factories and employs approximately 40,000 workers in the British Empire. On the death of Lord Melchett in December 1930 Sir Harry became Chairman.

Sir Harry has always been a believer in international co-operation, and is a great traveller having paid about fifty visits to Canada and the United States, several visits to South Africa and he has also been to South America. Last winter he made a tour through India, Palestine and Egypt. He is now paying a visit to China and on Wednesday will proceed to Shanghai, where he will remain for about three weeks.

From Shanghai he will return to England via America, being away in all about three months.

In addition to his chairmanship of Imperial Chemical Industries, Sir Harry is also a Director of the Midland Bank, General Motors Corporation and International Nickel Company.

OUR SCOUTS AND GUIDES

Entertained At "Mountain Lodge"

His Excellency the Governor and Lady Peel gave a tea-party at their summer residence, "Mountain Lodge," The Peak, to the Boy Scouts and Girl Guides in Hong Kong, when a very enjoyable time was spent by all present.

The hill-sides surrounding "Mountain Lodge" and the grounds presented a busy and happy scene as the scouts and guides played their games before forming a square on the lawn of the house to be addressed by His Excellency.

The writer was very much impressed by the friendly spirit that prevailed amongst the scouts and guides; for members of all nationalities were found amongst them, yet they were just like one large, happy family.

The Assistant Commissioner, the Rev. G. T. Wadgrave, was in charge of the "parade," and just before tea was served, His Excellency addressed the gathering. Sir William Peel said that it was one of the rules of scouting to do a good act a day and he would do his by not inflicting a long speech on the boys and girls. He was very glad to see such a representative turn out and he congratulated the boys and girls on their smart appearance. Scouting and Guiding was an excellent thing and His Excellency added that he was glad to see the boys and girls in Hong Kong keeping alive the spirit of the Movement in their small way.

TWO P.L. MINES TO PAY P.1,200,000

Benguet, Balatoc

Manila, Sept. 28.

Dividends amounting to 30 centavos per share, or P1,200,000, will be paid by the Benguet Consolidated and Balatoc Mining companies on September 30. These correspond to the third quarter of this year. Benguet Consolidated shareholders will receive P600,000 while Balatoc shareholders will receive an equal amount. The dividend rate authorized for Balatoc for the third quarter is the same as that for the second quarter when P600,000 was share to be paid on September 30.

So far Benguet has paid P1. per share or P2,000,000 while Balatoc has paid P.70 per share or P1,000,000. Balatoc paid 40 centavos per share on March 31 on 1,000,000 shares, making a total payment of P400,000, paid to its shareholders.

Benguet, on the other hand, will suffer a reduction. Twice this year Benguet paid dividends at the rate of 50 centavos per share, as compared with the 30 centavos per share dividend of 100 per cent was declared and issued May 25. On June 30 this company paid 30 centavos per share of 2,000,000 shares, or a total payment of P600,000.

The smaller dividend authorized for Benguet Consolidated for the third quarter is due to the delay in the sale of its gold bullion which is held in storage in the Welis-

ELEMENTARY SCHOOL TO £5,000 POST.

London, Sept. 12.

A man who left a church elementary school to begin a business career at the age of 13 to be the manager of the new Milk Marketing Board. He is Mr. Sydney Foster, general manager of the London Co-operative Society for the last nine years.

Mr. Foster was appointed to his new post, which carries a salary rising from £5,000 to £7,500 a year, at a meeting of the board in London yesterday. He expects to begin his duties not later than Oct. 1. Now 47, Mr. Foster joined the co-operative movement thirty-three years ago as a junior clerk at Sittingbourne. During the last few weeks he has been acting as chairman of the distributors' committee which is negotiating prices with the Milk Marketing Board. He has now resigned that position.

It is estimated that the board of which Mr. Foster is now manager will deal with an annual milk production of 1,000,000,000 gallons.

Fargo Bank in San Francisco, Judge John W. Hausermann, president and general manager of the Benguet Consolidated and Balatoc mining interests, recently cabled to the treasury department in Washington requesting permission to sell this bullion at the world price. The board of directors decided to reduce the third quarter's dividend pending the grant of the desired permit.

THE KEY INDUSTRY

Agriculture is the world's key industry, and the older political economists always held that the true state of a country was to be judged, neither by the court of the monarch, nor in the great towns, but by the prosperity or otherwise of the farmers and peasants. The American crisis is mainly due to the unhealthy state of agriculture. There are gluts of wheat, of cotton, of sugar, which really means that the groups of financiers controlling these commodities are unable to sell at sufficient profit. The reasons are complicated, but between the farmer and the bread queue stand sundry interests, keeping producer and consumer apart.

In England a splendid agriculture was largely sacrificed in the interests of cheap food. But British agriculture has shown an amazing vitality. Beaten in mass production for two generations it has concentrated on quality, particularly upon bloodstock, so that South Down sheep, Hereford and Channel Island cattle are found the world over.

How it may be asked, is English agriculture faring to-day? On the whole it is doing fairly well and holding its own. The agricultural statistics for England and Wales which were recently published by the Ministry of Agriculture give, in fact, an interesting indication of the general trend in agricultural developments during the past twelve months. Based upon returns made by occupiers on the 3rd of June, they cover practically every aspect of the industry, including the number of workers now employed on the land. They are divided into three parts, the first dealing with crops and grass; the second with livestock; and the third with labour.

The total acreage under all crops and grass this year is 25,112,000, as against 25,206,000 in 1932, a decrease of 94,000 acres. In addition there are 5,396,000 acres of rough grazing, as against 5,357,000 a year ago, an increase of 39,000 acres. It is interesting to note that while there has been a decrease in the area laid down for barley, oats, mixed corn, and rye, the acreage laid down for wheat has increased from 1,288,000 to 1,660,000—or 28.9 per cent. Beans, peas, potatoes, and most vegetables have also had greater areas devoted to their cultivation. The acreage given to sugar beet, a new industry, has increased from 255,000 to 363,900—or over 42 per cent. There has also been an increase in the area devoted to both small fruits and orchards.

The statistics relating to livestock show a general but slight decrease, except in the case of cattle. The total number of cattle in the country has increased annually since 1930, and this year's total of 6,621,800 is the highest on record. It shows an increase since June, 1932, of 263,000. The dairy herds this year, totalling 2,871,400, show a net increase during the year of 84,200, and is also the largest on record. The total number of sheep is 18,085,000, a decrease of 10,000 as compared with the figures recorded for 1932. There is, however, an increase in the number of ewes kept for breeding purposes—from 7,634,300 in 1932 to 7,763,000 this year. The total number of pigs has declined during the course of the year from 3,184,600 to 3,084,400.

Occasionally we read reports that tend to show that the horse is coming back into favour for certain purposes as against the motor. Some large firms announce that they find the horse cheaper for short journeys or for delivery of "sundries." Unfortunately for the horse enthusiast, the figures are against him. During the past year the total number of horses in the country has declined, from 617,000 to 602,300. There is a grain of comfort for the horse-lover in the official records, however, and that is that the rate of decrease is diminishing. There was a two per cent. decrease recorded in June, 1932, whereas this year the decrease is but 1.6 per cent. Another hopeful sign, and a most important one, is that the number of foals this year has increased 6.4 per cent., as against only 1 per cent. in 1932.

For the first time since 1924, the total number of agricultural workers shows an increase, mainly in the number of casual workers in jobs on the 3rd of June this year, though there is also an increase in the number of regular male workers of 21 years old or over. The total number of workers of all classes was 697,500 in 1932, and 715,100 this year, an increase of 17,600. Thus agriculture is now apparently profiting from the general improvement in the commercial and industrial condition in the country. And as special attention has only recently been paid to the needs of agriculture—and also as it is but natural that it will take longer for agriculture than for other industries to benefit from trade improvement and a consequent expansion of general purchasing power—we may reasonably assume that the next twelve months will show a much more marked improvement than the last.

OBITUARY

Mrs. Louise Jordan Miln

WELL-KNOWN WRITER ON CHINA

London, Sept. 30.
The death is announced of Louise Jordan Miln, the well-known writer on China and the Chinese.

Mrs. George Crichton Miln, better known as Louise Jordan Miln, was 69 years of age, having been born in March, 1864.

Mrs. Miln had lived in many parts of Europe, Asia, North America and Australia and had travelled extensively in nearly all parts of the world. She wrote chiefly about the Orient, and especially about China, and the Chinese, of which people she was a life-long student and a great admirer. Her last novel, "The Village of Yon-yih," was published in 1931.

per cent., as against only 1 per cent. in 1932.

For the first time since 1924, the total number of agricultural workers shows an increase, mainly in the number of casual workers in jobs on the 3rd of June this year, though there is also an increase in the number of regular male workers of 21 years old or over. The total number of workers of all classes was 697,500 in 1932, and 715,100 this year, an increase of 17,600. Thus agriculture is now apparently profiting from the general improvement in the commercial and industrial condition in the country. And as special attention has only recently been paid to the needs of agriculture—and also as it is but natural that it will take longer for agriculture than for other industries to benefit from trade improvement and a consequent expansion of general purchasing power—we may reasonably assume that the next twelve months will show a much more marked improvement than the last.

THE TYPHOON

The Colony had another typhoon scare yesterday, and No. 1 signal, hoisted early in the morning notified that the disturbance, that has been ploughing across the Pacific since September 29, on a West-North-West course, was likely to threaten Hongkong.

Junks scurried for safety, steamships lit up boilers, and the Kaitung got under way. Later No. 5 signal was hoisted, and the sky became overcast and lowering. There were heavy showers in the afternoon.

However, in the evening the typhoon changed its course and the No. 3 signal was put up which remained throughout the night. Fortunately, so far as can be ascertained, no report has been received by the Police of any accident both in the harbour and on the mainland.

POLITICAL CRISIS
IN CUBA

Govt. Troops Attack Communists

Havana, Oct. 1.
COMMUNISTS have been suddenly done to earth as a result of the vigorous way the Government troops yesterday checked wild demonstrations.

Infuriated by the Communists sniping from roof tops, soldiers launched a furious onslaught when blood flowed freely.

Troops at present hold the city with a strong grip, but the Government is still uneasy the reason being fear that Communists are planning a surprise coup throughout the country. They have been issued to troops to fire at sight upon parading Communists.

The exodus of British and American women and children continues from Havana and Santiago.—Reuter.

TANKS USED IN STREET
FIGHTING

Havana, Sept. 30.
The situation here has grown alarmingly worse during the last 24 hours as the result of a strike agitation by the so-called Soviet Party which has been organised by two Russian delegates. Business in Havana yesterday was virtually paralysed by a one-day General Strike.

Soldiers fired on Communist demonstrators, killing three and wounding 11. The soldiers were reinforced by a tank bristling with machine guns, and cavalry when trying to clear the street in which the Communist headquarters are situated.

The Presidential Palace is strongly guarded. Armed students are assisting the army. Considerable shooting occurred in the district where many Americans reside.

The strikers are planning to cause a general stoppage of trade and to take over the sugar mills which the Government are unable to protect.—Reuter.

N.I.R.A. CHIEFS STILL WORRIED

COAL CODE CAUSING ACUTE ANXIETY STEEL WORKERS TO ASK GOVT. TO INTERVENE

New York, October 1.

While the application of the Coal Code to miners in mines operated by iron and steel companies is expected to lead to the resumption of work of a hundred thousand striking miners and steel workers, and while the mob of five thousand coal strikers who trekked to Clairton, Pennsylvania, yesterday, ceased picketing the Carnegie Steel works there and are returning home, the unsolved problem of Union recognition, which is the issue of most strikes, is still causing the N.I.R.A. chiefs the most acute anxiety.

Ten thousand strikers, employed at the Weirton Steel Company, who allege a number of their fellow-workers were dismissed owing to Union Affiliations threaten to seek Government intervention if the Company does not recognise their Union.

GEN. JOHNSON HOLDS HURRIED CONFERENCE

After examining the coal situation in Western Pennsylvania, N.I.R.A. Officials are of the opinion that agreement in regard to iron and steel companies mines would not be sufficiently satisfactory to send all miners back to the pits.

General Johnson, who is still in hospital, summoned representatives of the United Mine Workers and steel Companies Mines to an immediate conference with a view to a settlement of the dispute.

A strong plea to workers to use the strike weapon only as a last resort was made by Mr. Green, Secretary of the American Federation of Labour, in which he urges workers who have grievances first to use the National State Labour Boards. If they fail to secure redress thereby, then they will be justified in striking, but should ponder deeply before going on strike.

Hyde Park, New York, October 1.
President Roosevelt has ordered Mr. H. L. Hopkins, Relief Administrator, to see that the destitute are provided with food, clothing and fuel during the winter.

This indicates the Federal Government will purchase the necessities for this relief work.—Reuter.

Plans to Overcome Difficulties.

Washington, Sept. 30.
A Monetary Declaration by President Roosevelt is imminent, according to high United States devaluation and stabilisation of the dollar and a promise of return to the Gold Standard.

The reason for this move, according to the "New York Times," is that the Recovery Drive, has reached an important stage and that difficulties are developing in the farming and public works administration. Latest indices show that production and distribution are slackening and that employment and pay toll gains are partly offset by the shorter hours and the higher cost of living.

The "New York Times" asserts that the flight of capital to England, Switzerland and Holland approaches U.S. \$1,000,000,000, while new investments are at a standstill.

A movement for credit expansion has apparently begun with the appointment of Mr. Henry Bruere, former President of the Bowers Savings Bank and former Adviser to the Mexican Government, as super-administrator of the Federal Credit Agencies.

It is considered probable that the Liability Provisions Securities Act will be relaxed in order to facilitate new issues.

Among the National Recovery Administrations is the reorganisation of 375 national banks releasing deposits totalling U.S. \$400,000,000. The Government are determined to assist only solvent banks.

It is understood that the President is considering the appointment of an advisory committee with a view to closer supervision of the New York Stock Exchange to prevent wild fluctuations.

The Retail Code has been completed and forwarded to General Hugh S. Johnson, head of the Recovery Administration, for approval, and is likely to become effective on October 16.

Meanwhile only 50 per cent. of the pledges in favour of wheat acreage reduction have been received. The farmers' difficulties

are revealed by the index of farm prices on September 15, which are 70 per cent. of pre-war level, while manufactured products are 16 per cent. above pre-war level.—Reuter.

Strikers Threaten Violence.

New York, Sept. 30.
Temperatures are growing shorter in the United States and the threat of violence is serious with strikes extending from coast to coast. The National Recovery Administration are anxious to help but are seemingly powerless.

Five thousand coal-strikers, hungry and weary from their long trek, yesterday stormed the Carnegie steel factory at Clairborn, Pennsylvania which employs 6,000 workers. They tore the clothes off a number of workers and devoured the contents of their dinner-buckets and also tried to induce the steel-workers to strike.

The stoppage in the soft coal industry in Pennsylvania, Virginia and West Virginia, involves practically 100 per cent. of the workers, while strikers are planning to picket the Ford works in order to induce a strike there.

Meanwhile, the Governor of Pennsylvania yesterday flew to Hyde Park to induce President Roosevelt to intervene before chaos and strikes overthrow the Recovery Campaign.

So far Hyde Park is silent, and Washington likewise, but both places are humming with activity and there are persistent rumours that President Roosevelt will launch a world appeal for economic peace even more dramatic than the arms and peace appeal.

The President of the American Federation of Labour, Mr. William H. Green has revealed that the Federation increased its membership by 1,500,000 in the last three months, which will mean a huge increase in funds.—Reuter.

CONVICTS LEAVE FOR GUIANA

Touching Scene At La Rochelle

La Rochelle, Sept. 30.
CLOSED shutters along the Quay St. Martin were the order of the day when 673 convicts, bound for the penal settlement in French Guiana to-day sailed in the convict ship, "La Martinique."

Columns of troops with loaded rifles and fixed bayonets guarded the narrow path, known as "The Road to Guiana," leading from the citadel to the quay-side, in order to prevent disturbances. Clad in grey cotton uniforms and carrying a blanket and a bundle with a few possessions, each convict looked for perhaps the last time at his native land.

Then the roll-call was taken, and in chains, with padlocked wrists the sad column marched down the path and boarded two tenders on which prison chaplains, one Catholic and one Protestant, said a few words.

The tenders then steamed out and the convicts climbed the ladders up the side of the ship and descended to the enormous cages in the hold in which they will travel to French Guiana.—Reuter.

TO RID AMERICA OF KIDNAPPERS

Determined Campaign by Government

New York, Oct. 1.
A MOST auspicious beginning has been made to the Government's determined campaign to rid the country of kidnapers. Seven from the ten persons charged with kidnapping, last July, of Mr. Urschel, the oil millionaire who was ransomed for \$75,000, were convicted at Oklahoma City, including Harvey Bailey who is regarded as one of the most dangerous gangsters in the United States. The sentences will be announced next week. The prosecuting counsel declared that every criminal in the United States could start to quake in his shoes as "we are going right down the line."

Sentences ranging from life to fifteen years imprisonment were passed at Edwardsville, Illinois, on six persons convicted of kidnapping in August. Mr. Luer, a prominent septuagenarian banker, the jury were absent for forty-one hours. It is learned all agreed in the death penalty on the two men prisoners, but as they were unable to agree on the same penalty for the woman prisoners they compromised on life sentences for the three prisoners.—Reuter.

CHIANG KAI SHEK MISDEEDS

New Deal With Japan Denounced

Canton, Sept. 30.
"If Chiang Kai-shek does not wake up to his duty or a 'new deal' with the Japanese, General Fang Chen-wu will overthrow him," Mr. Chu Ching-hsien, a representative of General Fang in Canton, declared to press representatives yesterday.

He stated that the occupation of Huaiju by General Fang's forces is at the request of the people of North China who look to them as a ray of hope for the recovery of invaded territories. Mr. Chu added that General Fang is bombarding Niulanshan, which is about 30 miles south of Huaiju.

Mr. Chu declared that other northern generals are bitter against Nanking for its oppression of anti-Japanese forces and have expressed their willingness to join General Fang in overthrowing the Nanking government.—Central Press.

Quarrels at Nanking.

Nanking, Sept. 30.
Serious split has occurred in the ranks of the Nanking government over the distribution of the U.S. \$50,000,000 American wheat and cotton loan and the "new deal" with the Japanese.

Although Mr. Soong is correct in saying that neither he nor his brother-in-law, General Chiang Kai-shek, contemplates resignation, it is an open secret that there is serious difference of views between Mr. Wang Ching-wei, president of the executive yuan, and Mr. Sun Fo, president of the legislative yuan.

Both Wang and Sun left for Shanghai yesterday.—Central Press.

Activity Round Kirin

Canton, Sept. 30.
General Wang Teh-lin, commander-in-chief of the volunteer forces, reported from East Kirin that preparations are being made to continue the campaign against the enemy with a view to recovering lost territories.

General Wang, who received his appointment from the Southwest Political Council, stated in a wireless report received here that he has gathered together his former forces and reorganized them into 18 brigades who will move against the enemy lines in three directions. Officers for each brigade have been appointed.

"There are 43,000 men in my army," General Wang reported. "My troops have captured three gunboats on the Yaho, a tributary of the Sungari River. These boats are armed with light guns and will be useful for transportation purposes before the river is frozen."—Central Press.

"ASIA FOR ASIATICS"

Shanghai, Sept. 30.
General Chiang Kai-shek stated at Nanchang to the correspondent of the Osaka Mainichi Shinbun that he favoured the movement started in Japan of "Asia for Asiatics."

The General is said to have suggested a clear slate of Sino-Japanese relations and to co-operate with Japan for mutual existence and glory.

According to the interview, General Chiang denied that he had sought the League's technical assistance through T. V. Soong as a measure against Japan, nor will the loans from abroad will be used against Japan.—Central Press.

JAPANESE PROTEST

THE CANTON RICE TAX

Assurance It Will Not Cause Inconvenience

(From Our Special Correspondent)

Canton, October 1.
Rice merchants here have to pay the foreign rice tax of \$1. "big money" per picul as from September 15, and all payments must be made by to-morrow at the latest.

This means that the petition for deferred payment has been turned down notwithstanding the many arguments advanced by rice dealers in Canton and Hong Kong.

It is said that the tax on imported rice will not be a burden to the people. Officials of the Provincial Department of Finance have produced facts and figures to prove that Kwangtung really does not depend on much foreign rice, hence the rice tax will not cause any hardships to the people in this province.

According to the figures available for last year, Kwangtung imported 13,576,542 piculs of foreign rice in 1932. The 30,000,000 people of this province consumed 120,000,000 piculs of rice during the same period. Thus, the percentage of foreign rice consumed is about one-eighth.

This amount can be made up by increasing and improving the production of the local crops, according to the official view. Therefore the tax on foreign rice will protect the farming community and yield a fund for the improvement of agriculture.

NEW SHIPPING SURTAX

To Maintain New Harbour Administration

(From Our Special Correspondent)

Canton, Oct. 1.
FOR the maintenance of the Kwangtung Harbour Administration, the 30 per cent. "shipping surtax" is diverted to-day from the Chinese Maritime Customs to the first named organ.

This transfer was made at the order of the Kwangtung Provincial Government upon approval by the South-west Political Council. The Kwangtung Harbour Administration has taken over most of the harbour affairs from the Maritime Customs, but having no administrative expenses from the Government, it has to collect port dues that formerly went to the customs authorities.

Harbour affairs of all the river towns are administered by the branch stations of this Office, which is directly under the Provincial Department of Reconstruction. To prevent the branch stations to levy shipping dues more than once, the Department of Reconstruction has issued an order against double imposition.

CHINESE POLICE DISARMED

Slight Skirmishes With Fang's Army

Peiping, Sept. 30.
According to Chinese reports 2,000 Special Police, sent from Pientsin to the Luantung region to suppress banditry, were turned back by Japanese military forces at Lanchow because they had machine-guns and trench mortars, contrary to the Tangku Treaty.

The Japanese took possession of these but nevertheless did not allow the Police to proceed.

There has been skirmishing in the region of the Ming Tombs and the Nankow Pass between the retreating army of Fang Chen Wu and the Government garrison, but nothing of a serious nature.—Reuter's Pacific Service.

South China Wins "Chinese Derby" ARTILLERY BEATEN BY CLUB KOWLOON BY LINCOLNS

The 1933-1934 Soccer league season was officially opened on Saturday when no less than 11 matches were played in all three divisions. With the exception of one, the results were as expected.

In the Senior Division, the Club beat the Royal Artillery, while Kowloon were narrowly beaten by the Lincolns. An unpleasant incident marred the Police-Recreation match two players—Moss and Bower—being given "marching orders."

The surprise of the day was the defeat of the Borderers, last year's runners-up, by the Royal Navy in the Second Division. The Chinese Athletics, last year's champions, maintained their old form, defeating the Club, while the Lincolns went down to South China.

The R.A.M.C., new comers to the League made a promising debut in the Third Division by beating the University 10-1.

Two First Division matches were played yesterday. South China, last year's champions, beat the Chinese Athletics by four goals to one in what was generally called "The local Chinese Derby," while St. Joseph's lost to the Borderers by two goals to four.

South China Beat Athletics

FINE GAME AT CAROLINE HILL

A very fine game was seen at Caroline Hill yesterday when South China, last year's champions, beat Chinese Athletics by four goals to one, in what is generally called "the local Chinese Derby." Although the score seems to indicate an easy win for the champions, the game was in fact very even and it was due to errors that both sides scored their goals. The Athletics had as many opportunities of scoring as their opponents, but they showed lack of understanding and erratic passing which eventually cost them the match.

With the exception of the absence of Fung King Cheong the champions turned out their strongest team possible, in view of the importance of the match, which aroused considerable interest among the Chinese community. This was evident by the large crowd that turned up. The champions maintained their short-passing tactics which as usual proved effective while the Athletics adopted the rush tactics.

Play started fairly evenly with both sides attacking in turn. Several opportunities were missed, and it was not until after 10 minutes' play that South China opened the scoring through Pau Ka Ping, who scored in a "melee." The Champions continued to attack, and Tam Kong Pak missed badly.

The Athletics then retaliated and within five minutes of the first goal, they equalized through Mak Sau Hong who sent in a beautiful shot from just outside the penalty area. Play was again even at this stage, with the champions slightly superior in attack. About five minutes before the interval, South China was given a "gift" goal through the error of the Athletics goalkeeper, who, after getting the ball, fumbled and dropped it. Pau Ka Ping, who was standing by, rushed in and scored. Immediately afterwards, Tam Kong Pak added the third goal, a fine angled shot from outside the penalty area. Two goals with-

After the interval the Athletics lived up considerably, and were seen on the offensive for the greater part. They, however, failed to score owing to erratic passing, while at the other end Wong Mee Shun and Tam Kong Pak missed badly. At this stage rain began to fall in torrents, which had the usual effect on the players as well as the ball and ground. Ball control was extremely difficult, while the condition of the ground made most of the players continually lose their foothold. However, the game was as interesting as before, and just before the whistle went, Wong Mee Shun added the fourth goal for the champions.

The teams were:

South China: Wong Wm; Li Tin Sang and Lau Mau; Leung Lo Chan, Leung Wing Chiu and Li Kwok Wai; Yeung Siu Yick; Wong Mee Shun, Pau Ka Ping, Tam Kong Pak and Ip Pak Wa.
Chinese Athletics: Li Kwok Ki; Tan Kwong Wing and Wong Ping; Li Kwok Chiu, Ip Pang Fai and Ho Choi Yin; Tang Kwong Sun, Au Kin Fung, Ho Ka Kuen, Mak Siu Hong and Fung King Yue.
Referee: Capt. Hague, R.A.

STOPPED BY RAIN.

This match was played at Soukumpoo but had to be abandoned on account of the heavy rain that began to fall shortly after 5.15 p.m. The Borderers were much the better team and were all over their opponents who found the wet ground rather a trial. After a few minutes of what might be described as scrappy play, the soldiers settled down and soon opened the scoring. This acted as an incentive to their forwards for no sooner had play resumed than they got another goal.

St. Joseph's in the meantime were putting up a determined fight and before the interval they had reduced the deficit by one. They were rather unfortunate in not getting a second goal before half-time. After the change-over, the soldiers scored again but this was rather a lucky goal. They then conceded a penalty which St. Joseph's converted, and after the Borderers had got their fourth goal, drenching rain came on and play had to be abandoned.

SECOND DIVISION

NAVY V. BORDERERS
The Borderers, last year's runners up were surprisingly beaten by the Navy by five goals to one at Soukumpoo.

The soldiers' downfall was mainly due to their lack of combination, while on the other hand the sailors, besides combining well, adopted the rush tactics with great effect.

After 20 minutes' play, the sailors opened their scoring through Barnett. Williams played well in goal for the Borderers, but he was again beaten before the interval when Edworth broke through. After the interval the Navy were again on the offensive and it was only the fine keeping of Williams that allowed the Borderers to avoid a much heavier defeat. Edworth scored the third goal, and would have had another

but for a very fine save by Williams, who snatched the ball off his toe.

Foray scored the Borderers' goal, but Edworth and Barnett each added goals for the Navy.

ATHLETICS V. CLUB
The Chinese Athletics, last year's champions, opened their season in a promising manner, beating the Club by four goals to one at Happy Valley.

In the first half, the Chinese forwards played good football being fast and tricky, but after the interval, the club's defence improved considerably as a result of which the Chinese were held in check.

Good play by Cheong Moon-wing resulted in the first goal. Koo meeting the ball on the run. A few minutes later Koo repeated the effort and the Club conceded another goal when Lo Chai-wan sent in a great drive.

After the interval the Club had their fullshare of the play. Williams hit the post, and Bell shot just over. The Athletics went further ahead when Koo scored his third goal. In the last minutes Bell scored after a solo effort.

KOWLOON V. R.A.
At Kowloon, the Artillery proved too strong for the home team, winning by three goals to nil.

The Gunners opened their scoring after fifteen minutes when Snooks sent over a nice centre for Leach to score with a first-time effort.

The Gunners' second goal came from the right wing again, Snooks sending across a beautiful centre for Hardy to head through.

The Kowloon forwards though well served by their halves, could make no headway. Nicholls made some good saves for Kowloon but towards the end he was beaten by Birmingham who gave him no chance with a fast low shot, which hit the bottom of the upright and rebounded into the net.

S. CHINA V. LINCOLNS.

On their own ground S. China beat the Lincolns by four clear goals.

The Chinese were superior throughout and on their form on Saturday, it would not be surprising to see them in the running for the championship.

South China attacked from the start and within a few minutes Ng Po-kui put them ahead. The Chinese second goal came from Kam Shek-wai who headed through from a pass by Ng Po-kui.

After the interval the Lincolns improved, but they soon fell off and South China scored two further goals through Ng Po-kui.

THIRD DIVISION

S. CHINA V. R.E.
On the Chatham Road ground, South China defeated the Royal Engineers by the odd goal in three. To Wai Hing and Tang Man Hang netted for the winners and Hollsworth scored for the losers.

BORDERERS V. R.A.F.
The Borderers beat the R.A.F. by 3 goals to 2 at Happy Valley. Nelson, Purcell and Morgan scored before the interval, while Gregory netted for the Air Force. In the closing stages Tate added another for the R.A.F.

R.A.M.C. V. UNIVERSITY
The Royal Army Medical Corps newcomers to the League, made a promising start with a 10-1 victory over the University.

Poole, (2), Lane, and King scored for the newcomers in the first half, but Tjoo reduced the deficit before the interval. Pim (2), Poole (2), and King (2) added goals for the winners after the interval.

LINCOLNS V. RECREATION
The Lincolns defeated the Recreation at King's Park by five clear goals. Clarke scoring four goals, one from a penalty, after Harper had opened the scoring.

SATURDAY'S MATCHES

FIRST DIVISION
CLUB V. ARTILLERY
On their own ground, the Hong Kong Football Club did well to beat the Royal Artillery by four goals to two.

The Club were better in positional play, and although they showed little combination, they fully compensated for this by their go-ahead methods.

Combey, the Artillery goalkeeper, was the outstanding player on the field, and he was mainly responsible for saving his side from a much heavier defeat.

Howe opened the scoring for the Club beating Combey after the latter had partially saved his header. Shortly afterwards the Artillery had an opportunity to equalise when they were awarded a penalty, but Edmunds sent in a weak shot which Foy-will saved. Just before the interval, however, they succeeded in levelling the scores through Walker.

After the interval, the Club

LOCAL HOCKEY

Jats Beat Y.M.C.A. 8-3

Heavy scoring and fine forward play featured the hockey match between the Y.M.C.A. "A" team and the Jats, on the Marina ground on Saturday.

The Yats were out-played in the first half, the score being 4-0, but although they had another 4 netted against them in the second, they managed to score three goals themselves. Lieutenant Syer was in fine form for the winners, getting three goals and Jell (3), Habib (Khan) (9) and Goundak were the other scorers. For the Y.M.C.A. the two Lammeris and Gickrist each scored a goal.

SHAI BOWLERS BEAT YACHT CLUB

Interesting Game At North Point: Richards A Good Skip

VISITORS SCORE TWO FOURS AND A FIVE.

Playing at North Point yesterday, the visiting Shanghai Bowlers had a comparatively easy game and won by 23 points to 18.

C. Richards skipped the Shanghai team and proved the best skip they have tried so far, and it seems more than possible that Richards will be called upon to skip the first interport match against the Colony when Luz will lead Hongkong.

A very strong wind prevailed throughout the afternoon and a slight drizzle came on before the match, and again just near the end, but in spite of this, quite a good game was seen.

On Saturday, the Shanghai team were defeated by the Kowloon Bowling Green Club by the wide margin of fourteen shots.

LOPES AND REMEDIOS IN FORM

Lopes, who played No. 1 for Shanghai, and Remedios who was second man for the visitors were largely responsible for Shanghai's victory, though Bailey and Richards also did very well.

The team showed definite improvement on their earlier appearances in Hongkong, and at times played at a surprisingly high standard. The game opened sensationally with Shanghai scoring a four but the Yacht Club took the next three heads to lead by 5-4. Shanghai drew level with a single and the Yacht Club again led when they scored a single. Shanghai then scored a "five" to lead by 10-6. Nothing daunted, the Yacht Club drew level in two heads and by the end of the twelfth head was leading by 13-11. Number 13 however, seemed to spell doom for them for they remained at that figure for five heads, while Shanghai went on to score 8 shots bringing the total to 19 against the Yacht Club's thirteen.

The Yacht Club made up for lost time by taking five points in the 17th head, but two singles and a two put Shanghai in a comfortable position just before the last head was played, which fell to the Yacht Club by a single.

Abraham and Sutton played well for the Yacht Club, but the feature of the match was the excellent play by Richards as skip, who, when called upon to prevent big scores invariably managed to get his wood mixed up with the opposition and so reduced their points.

The detailed score is as follows:

Shanghai Defeated At K.B.C.C.

HOME TEAM WINS BY FOURTEEN SHOTS

Playing at the Kowloon Bowling Green Club on Saturday, Shanghai, represented by A. A. Malcolm, G.M.P. Remedios, T. G. Main and W. A. Bailey (skip) went down by 23 shots to 9.

The Kowloon Club was represented by W. S. Drake, V. Petherick, D. G. Dow and F. L. Rapley (skip). Malcolm found the green very difficult and Drake often had the better of him in the first woods. Remedios also proved somewhat disappointing while Main was only in flashes. Bailey as skip brought off some fine shots, but while he was the most accurate player, even he failed to be consistent. On one occasion when his side was lying the second in attempting to draw a second with a difficult draw, hit the jack so hard that he carried it into a nest of the Bowling Greens' back woods, to allow them to lay 4.

CONCERT AND DINNER.

At a concert and dinner which followed the match at the Bowling Green, a very enjoyable time was spent by the Club members and their guests. In the course of an informal speech, Mr. T. G. Main, manager of the Shanghai team remarked that in a way he was glad Shanghai had lost, as it would be an incentive to them to stiffen up for the interport.

During the dinner souvenir spoons were exchanged between the two teams.

PORTIA IN GREAT FETTER

Impressive Performance On Saturday Morning

There was more than usual interest in the tryouts at the course on Saturday morning and one of the outstanding performances was that of Portia, an Australian pony, entered for the forthcoming meeting. Those interested will see from the times given below what a remarkable gallop he put up.

Trentbridge also did very well and, needless to add, is a sure winner for the "A" Class.

Both Mayflower and Cossack's Beauty did well and should provide a good race on October 7.

INTERPORT SWIM TO-NIGHT

Shanghai Team Due On The "Coolidge"

HONGKONG OPTIMISTIC

BY "WATERMAN"

Hong Kong's Swimming enthusiasts are all keyed up for the inter-port swim which commences this evening between Hong Kong and Shanghai. The Northern team is arriving this afternoon by the s.s. President Coolidge and the inter-port will start at the V.R.C. at 9.15 p.m. sharp.

The Shanghai team will proceed to Manila to-morrow and will return on October 9, when they will continue their programme in Hong Kong. They are due to leave Hong Kong on October 10 at mid-night.

The Secretary of the V.R.C., Mr. P. A. Dixon, forwards us the following information with regard to the composition of the Shanghai team and the representatives chosen for each event:—

October 2nd.

50 Yards free style—F. Hadley and Brousseau.
100 Yds. Back stroke—R. Moffett and R. R. Duell.
50 Yards free style—F. Hadley and A. Logan.

Medley Relay—
Back stroke—R. Moffett.
Breast stroke—E. McAllester.
Free style—F. Hadley.

October 3th.

100 Yds. Free style—F. Hadley and A. Logan.

200 Yds. Team Race (4 men):—F. Hadley, A. Logan, E. McAllester and O. Brousseau.
220 Yds. Free style—F. Hadley and A. Logan.

With regard to the proposed water polo fixture, since Shanghai are unable to turn out a full side, the game will be played as a friendly and will carry no points in the competition.

Hong Kong's Chances

Hong Kong will be all out tonight to get the lead in the inter-port contest. Their main hope rests with L. Roza Pereira who carried everything before him in the recent championships. Pereira will swim in the back stroke and the 440 to-night and will probably be chosen as second string for the fancy diving, which will be mainly left in the hands of Ed da Rosa, the Colony's diving champion.

S. V. Glittins is turning out for the 440 yards as the Colony's second choice. He is a lad with plenty of stamina and although he is not in perfect training, should be a worthy representative of Hong Kong. Lawrence and E. B. da Rosa will have to do duty for the Colony in the 50 yards. E. B. da Rosa is a very useful sprinter and can confidently be expected to give Hadley the Shanghai "crack" a run for his money, while Lawrence also is every bit reliable and being at the top of his form, may create a surprise.

Lawrence will be swimming with Roza Pereira in the back stroke events against Moffett and Duell, two very worthy exponents of this style. He will also represent the local side in the back stroke for the Medley Relay.

In the Medley Relay, Hong Kong will probably be represented by W. Lawrence (back stroke), E. B. da Rosa (free style) and B. Gosano (breast stroke).

The sport commences at 9.15 p.m. sharp and tickets for non-members are \$2.20 each. There is no booking and no seats will be reserved.

Dispute about W. T. Campbell With regard to the appearance of W. T. Campbell in the Colony's Championships, it is learned that the Hong Kong Amateur Swimming Association held a meeting on the question, but had not decided to suspend Campbell who therefore swam in the Y.M.C.A. gala on Saturday.

It is understood that both the V.R.C. and the Army have taken steps to protect Campbell's interests should he be in any way penalised for appearing at the Championships.

KWOK CHUN HANG GIVES GOOD PERFORMANCE

Some very good swimming was seen on Saturday night at the Y.M.C.A. aquatic gala.

W. T. Campbell also won a brilliant race in the Men's 440 Free Style Championship when he set up 6 minutes 11 seconds.

The Men's 50 yards Aggregate went to S. Fowler and the Ladies 50 yards Aggregate to Miss A. Fowler.

At the conclusion of the gala Brigadier General R. B. Cousens, D.S.O., presented the season's prizes. The following were the results:—

Wah Tai College

SUCCESSFUL AQUATIC SPORTS

Favoured by excellent weather and with a very high tide, the Wah Tai College held its First Annual Aquatic Sports on Saturday at the Chinese Athletic Association's Bathing Shed, North Point. There was an unusual large attendance of students, parents and friends. Some fairly good times were secured by Mak Wai Ming, a boy of only 14 years old. The 200 metre inter-school relay race was keenly contested by 8 schools, viz. King's College, Central British School, La Salle College, Diocesan Boys School, Tai Tung College, St. Paul's College, St. Joseph's College, T'ing Wah College, and Wan Yau College, and was won by King's College.

The headmaster, Mr. Lui Sun Lu, in a short speech thanked Mr. Ngan Shing Kwan for being present to give away the prizes, and Mrs. Ngan for her presence at this event. He congratulated Mak Wai Ming for capturing the individual championship, by a broad margin, and the other successful competitors. In conclusion he thanked C. A. A. for the use of the shed, the Florence Nightingale Division for rendering ambulance services, and all those who were present for their attendance.

After distributing the prizes, Mr. Ngan Shing Kwan said that it gave him great pleasure to give away the trophies and to see such excellent arrangement. He urged the younger generation to live up to the ideals of education, which include physical training, of which swimming is a part.

The following are the results:—

THAT 1934 BUDGET

What Kowloon Gets Out Of It!

(By Our Special Correspondent)

(By Our Special Correspondent)
Kowloon is, coming in for her
fair share in the estimates for 1934,
and one very welcome item under
"Buildings" is the Kowloon Mag-

istracy.
This opens up the old subject of
the present Magistracy, the wonder
being that the powers-that-be did
not order the building to be pulled
down long ere now.

The present Kowloon Magistracy
is most unsuitable for its purpose.
It is not only too small, but, situat-
ed as it is in the heart of the poor-
est quarter of Yau-mat, it is very
noisy, so much so, that sometimes
when a case is in progress, it is
extremely difficult to hear what is
going on. With the new building
approved, all this will belong to the
past and let us hope that things
will be more comfortable for all
concerned.

The official specification, a model
of concise statement, is as follows:

Kowloon Magistracy, \$120,000.—
The work consists of the erection
of a Magistracy Building on the
Borders of King's Park and adjoining
Gascogne Road. The building
will be of three stories and contain
in addition to the large Court
Rooms, a small Juvenile Court,
Waiting Rooms, Stores for Re-
cords, Cells and Detention Room,
Quarters for Messengers etc., Ma-
gistrates' Chambers, Solicitors'
Room and Office accommodation
for the Administrative Staff. The
top floor will consist of two Euro-
pean flats.

The building will replace the old
and inadequate temporary Magis-
tracy now contained in what was
formerly the Yau-mat Police Sta-
tion.

Other important works to be
taken in hand are as follows:—

Kowloon Hospital Additions, \$36,
000.—To complete the additions
which comprise a new General
Ward Block for 3rd class patients,
a block of Nurses' Quarters and an
additional Medical Officer's house.

New Residence for Director of
Royal Observatory, \$22,000.—To
complete the erection of a detached
house in the Observatory grounds
for the use of the Director.

New Central British School,
Buildings and site formation, \$50,
000.—To complete work on the site
formation of this school.

Mong Kok Tsui New Market,
\$18,000.—The proposed building is
of the usual market type, one story
in height with open sides and care-
taker's quarters on the roof. Ac-
commodation includes 21 stalls and
a poultry killing room.

Market at Tong Mi, \$22,000.—To
provide for the erection of the
usual type one storey open market
comprising 24 stalls with care-
taker's quarters on the roof. The
site is on the west side of Lai-chikok
Road, on that area reserved for the
Sanitary Department according to
the Town Planning layout.

Kowloon Hospital Out-patients
Department, \$70,000.—The existing
accommodation in the main hospi-
tal block is totally inadequate to
cope with the increasing number
of out-patients. The new block will
be sited at the Waterloo Road—
Argyle Street entrance to the hospi-
tal. It is one storey in height
and consists of a large central wait-
ing hall with consulting and ex-
amining rooms opening off.

Accommodation for Mong Kok
Fire Substation, \$40,000.—To pro-
vide accommodation for additional
fire fighting appliances and person-
nel in the Mong Kok area.

Hong Kong Government Store,
\$30,000.—The want of a building
sufficient to protect stores from the
weather has been apparent for some
time.

Temporary Post Office Building
at Kowloon Point, \$20,000.—With
a view to the ultimate develop-
ment of Government buildings at
Kowloon Point and to meet the

demand for better postal facilities
it is proposed to construct a tem-
porary post office on the vacant
land to the east of and opposite the
Peninsula Hotel.

ROADS etc.

Roads, \$80,000.—The vote will
meet expenditure incurred by road
surfacing, kerbing, channelling and
the construction of footpaths in new
areas under development.

Drainage (a) Training Nullahs,
\$1,000.—To make provision for
stream course improvement in areas
under development (b) Miscellan-
eous Drainage Works, \$70,000.—
This vote is mainly for the provi-
sion of sewers and storm water
drains in areas under development.

Water Works: (a) Miscellaneous,
\$8,000.—To provide for extensions
to subsidiary water mains and mis-
cellaneous minor works (b) Meters,
\$30,000.—To provide for the instal-
lation of meters throughout the
year.

Port Works, \$1,000.—Required for
taking soundings, borings and pre-
liminary investigations in connec-
tion with new and proposed har-
bour works, foreshore dumping etc.

Improving Waterloo Road from
Disinfecting Station to Railway
Bridge, \$10,000.—To complete Wa-
terloo Road to its full width over
the above section.

Chinese Cemeteries—Laying out
new areas, \$4,000.—To provide for
new burial areas in existing ceme-
teries.

Refuse Dump at Sung Wong Toi,
\$8,000.—This is to provide facilities
on the Eastern side of Kowloon
Peninsula similar to those which
have proved successful at Cheung
Sha Wan in respect of the disposal
of refuse by the Sanitary Depart-
ment and is a continuation of work
commenced in 1932.

WATER WORKS.

Back Lane Service Pipes, \$12,
000.—Provides for the extension of
subsidiary service pipes in back
lanes in newly developed properties
to obviate the necessity for direct
connection to principal mains.

These subsidiary mains are even-
tually paid for by house owners
when connections are applied for.

Distributing Mains, \$15,000.—
To provide for water mains to new-
ly developed areas.

New Service Reservoir, Yau-mat
Hill, \$38,000.—To complete.

Distribution Circuit for New Re-
servoir, \$30,000.—To complete the
new distribution circuit from Yau-
mat Hill Service Reservoir which
is being installed in order to im-
prove water pressure in Kowloon
Point district.

Rubble Mound and wall between
K.M.L. 97 and Sung Wong Toi
Road, \$30,000.—To permit the con-
struction of a rubble mound and
sea wall in accordance with the ap-
proved town planning scheme.

Typhoon Signal Station between
Kowloon Tong and Kowloon City,
\$3,500.—No facilities exist to warn
the surrounding developed area of
the proximity of typhoons. To per-
mit of the construction of a typhoon
signal mast and hut of brick
and lime mortar to house two coo-
lies and the necessary day signals.
Both day and night signals will be
shown.

Only assistants approved by the
licensing authority are to be em-
ployed by message establishments,
under the new Ordinance announced
in the "Government Gazette." The
regulations state that licensees shall
permit any police officer not under
the rank of a sub-inspector or any
other authorized person to enter and
inspect the premises and the en-
tries in any records kept in connec-
tion with the establishment. No
message or other treatment can be
given except between the hours of
5 a.m. and 6 p.m.

continued to attack and within
five minutes, Fowler regained the
lead for them. Shortly afterwards
the same player increased the
Club's lead to three-one. A few
minutes later they were awarded
a penalty, and S. Strange, the
captain, put them three up. To-
wards the end Walker reduced the
deficit for the Artillery after a
nice solo effort.

Strange; Robertson, Skinner,
Duncan; Fowler, Dornin, Howe,
E. Strange, and Bickford.

RECREIO V. POLICE

This match was played on the
Recreio's ground, and resulted in
a win for the Police by five goals
to one.

The opening stages of the game
promised some very fine football,
but frayed tempers in the second
half led to bad feeling which re-
sulted in Moss (Police) and Bow-
ern (Recreio) being "ordered off."

The Police forwards played well
and gave the Recreio defence
many anxious moments.

Near their opponents goal the
Recreio were rather at fault, but
they showed excellent team work
while bringing the ball there.

The Police opened the scoring
early in the game when Stevens
sent in a hard shot. Shortly
afterwards they increased their
lead through Green who ran
through on his own. The third
goal was scored by Channings
from outside the penalty area.

From a free-kick taken by
Figuereido, the ball rebounded off
the cross bar and Gomes netted
for the Recreio. Immediately
afterwards, Green replied for the
Police after a nice solo effort.

After the interval, T. File scored
the fifth goal, and although
the Recreio tried hard to reduce
the deficit they found McHardy a
stumbling block.

Recreio:—McGrann, Silva-
Netto, Bowen, Guterres, Figuere-
do, Maher, Castilho, Delgado,
Siqueira, Gomes and Ribeiro.
Police:—McHardy, Perkins, File
C. Gough, Channings, Brittain,
File T., Moss, Cook and Green.

KOWLOON V. LINCOLNS

The Kowloon Football Club who
beat St. Joseph's by nine goals in
a friendly encounter the previous
week, suffered defeat in their
first league match of the season,
with the Lincolns, on Saturday,
when they went down by one
goal to nil.

The game was very even, and it
was not until the last minute that
the deciding goal was scored.

Cord gave a superb display in
goal for Kowloon, saving many
difficult shots. As a matter of fact
it was he who kept the Lincolns
from scoring earlier, for the Lin-
colns at one time bombarded the
Kowloon's goal from all angles,
and at least half a dozen shots
were sent in, in about as many
seconds!

Hocquard and Ridley again
proved a dangerous combination
in the Lincolns' vanguard. Their
defence, apart from several small
errors, played well, but Health
the goalkeeper, made a mistake
which almost resulted in Kowloon
scoring.

For the home team, Blake, the
left winger played a good hard
game, but Elliott was inclined to
dribble instead of distributing the
ball. Bliss was the best of the
defenders.

The game, as stated, was very
even and it was in the closing
stages that Ridley scored the win-
ning goal for the Lincolns from
a nice pass by Baldry.

Lieut. Comdr. G. H. Gandy, R.N.
(retired) will read a paper on "Sur-
veying and Topographical Survey-
ing" in the Institution of Engineers
and Shipbuilders on October 12, at

invited to be present.

FRENCH SHIPPING

Proposed Reservation Of Trade

A description of the methods which M. Frot, the Minister of Merchant Marine, intends to propose for the protection and assistance of the French shipping industry appears in an account of an interview with M. Frot published by Le Cri de Paris.

An important feature of his programme is the suggestion that all holders of import licences should be compelled to make use of French bottoms for transporting their goods, and that all public services importing coal and oil should be obliged to follow suit. Another suggestion, also of international importance, is that steps should be taken for the protection of the home shipping industry where devalued currencies or the application of commercial legislation create "a lack of equilibrium between various countries."

Other items on M. Frot's programme are the use of part of the Customs revenue for granting subsidies to shipping; the co-ordination of French shipping by suppressing duplicated services and by developing those which are inadequate; co-ordination of international shipping by understandings between the various countries concerned; concentration on considerations of safety and speed rather than on size in building new ships, and maintenance of the credit of shipbuilding concerns; and the establishment of a fast service between France and North Africa.

These proposals, which it is safe to assume are correctly reported, have still to receive the Government's sanction, and it is not yet by any means certain that M. Daladier and his colleagues will be convinced that it would be politic to add to the many trade restrictions already in force.

ROW ON BOARD SHIP

Saigon Incident Sequel In Singapore

Singapore, Sept. 28. Two ship's firemen twitting each other about slowness in work, an argument, blows and an alleged attack with a knife, these were the various stages of an incident which disturbed the harmony on board the s.s. Barrow Haig at anchor in the harbour and which resulted in the appearance of William Shearer (40) before Mr. H. A. Forster, the criminal district judge. The charge against him was one of voluntarily causing hurt with a knife to Alexander McKenzie on the afternoon of Sept. 13. Police evidence was led by Mr. A. R. Anderson, A.S.P. Accused claimed trial and denied that he had used a knife. Thomas Holland, ship's carpenter, said he was working on the starboard side of the forward well deck when his attention was drawn by a cargo man to two men who were fighting. He ran to the spot and saw accused and McKenzie struggling. The latter was covered with blood. He did not see any weapons. He notified the chief officer of the incident without delay. He had never heard of any ill-feeling between the parties during the five months he was working on the ship.

Inspector Scott then read out an English translation of a Saigon's doctor's medical certificate which was in French. According to the report only one of the four wounds was in any degree serious. Pending the complainant's arrival from Saigon, the matter was postponed and will be mentioned again on September 28.

CLYDE SHIPBUILDING

5 Vessels Launched And 7 Ordered

In the number and variety of the shipbuilding contracts placed on the Clyde August has proved the best month of this year so far. Seven new vessels have been ordered.

August has also been the best month in launching output, although the total is a mere fraction of the river's normal output. Five vessels have been launched, totalling 9,064 tons gross, which is greater than the tonnage launched in the last four months taken together. The output for the year to date is 16 vessels, aggregating some 23,000 tons gross, compared with 19 vessels of 36,000 tons in the corresponding period last year.
